PRODUCT INFORMATION

Skintelligence 5-Piece Skincare Set is the perfect way a caring individual can build a lasting foundation for beautiful skin to last a lifetime. Every day, one should implement a basic skincare regimen that is fast, effective and affordable. This would include a deep cleansing emulsion, a pH skin normaliser, a daily moisturiser, as well as a skin revitaliser. The Skintelligence 5-Piece Skincare Set offers just this and more. Each set includes an 8-ounce Hydra Derm Deep Cleansing Emulsion, an 8-ounce pH Skin Normaliser, a 4-ounce Daily Moisture Enhancer and a 1-ounce Cellular Perfecting Complex. The set also includes a 4-ounce Facial Firming Masque to gently tighten and tone your facial skin.

Application of the Skintelligence Skincare Basic System:

- Step One: Cleanse your skin with the Hydra Derm Deep Cleansing Emulsion.
- Step Two: Balance and refresh your skin to its normal pH balance using pH Skin Normaliser.
- Step Three: Reduce the appearance of fine lines and hydrate your skin with Cellular Perfecting Complex.
- Step Four: Moisturise and protect your skin with the Daily Moisture Enhancer. Note: You can follow this regimen both morning and evening. This basic system works great under makeup.
- Step Five: Twice per week, spend 12 minutes pampering yourself while removing impurities from deep within your skin. Use the Facial Firming Masque to temporarily erase the effects of time, stress and the environment.
