MOOD

PROMOTES COGNITIVE
PERFORMANCE

713045 | OPTIMAL WELLNESS KIT CONTAINS
ISO TONIX MULTIVITAMIN ; ISO TONIX
ADVANCED B-COMPLEX ;AND HEART HEALTH
OMEGA

Why choose the Optimal Wellness Kit?

Optimal health starts with a solid foundation. Start by ensuring your body gets the proper vitamins and nutrients it needs. The Optimal Wellness Kit contains three essential supplements – Isotonix Multivitamin, Isotonix Advanced B-Complex and Heart Health Essential Omega III – that will help you promote long-term health and optimal nutrition. Plus, by purchasing the Optimal Wellness Kit instead of buying these products individually, you can save!

Isotonix Multivitamin contains vitamins and minerals to help establish a sound micronutrient foundation to complement your diet. With today's fast-paced lifestyles, it is important to ensure the body is getting the fuel it needs. Isotonix Multivitamin supplements dietary deficiencies and helps maintain normal metabolic functioning. Even when eating a balanced diet, it is difficult to consume the optimal amounts of vitamins and minerals each day.

To provide the eight essential B-vitamins that contribute to your body's metabolism at the cellular level, this kit includes Isotonix Advanced B-Complex, so you can be certain that your body is getting the vital nutrients it needs quickly and effectively. Because many vegetarian diets are lacking in the essential B-vitamins, Isotonix B-Complex helps to provide vegetarians with these vitamins.

Finally, Heart Health Essential Omega III is a superior product due to a number of factors. The best fish are used to produce a clean and safe product that is rich in eicosapentaenoic acid (EPA) and docosahexaenoic acid (DHA). Where other competitive products use large fish which are more likely to accumulate toxins, Heart Health Essential Omega III uses smaller fish, which have short lives and, therefore, less opportunity to build up toxins. Heart Health Essential Omega III provides a high quality, high purity product with significant percentages of the health promoting EPA and DHA.
