FAQ'S

Where should I apply Ultimate Aloe Gel?

Ultimate Aloe Gel can be applied all over the body except for lips, eyes, and any body surface covered by mucous membranes.

Does Ultimate Aloe Gel protect against sunburn?

No, Ultimate Aloe Gel does not contain any type of sunscreen but is formulated to soothe irritated skin caused by sunburn.

How does Aloe soothe the skin?

Aloe contains numerous compounds such as enzymes, amino acids, polysaccharides, and antioxidants among others. Aloe helps to soothe irritated skin by moisturising the skin and protecting it against oxidative stress.

Will Ultimate Aloe Gel heal bug bites?

Ultimate Aloe Gel will help to soothe irritated skin caused by bug bites but is not formulated to heal skin.

Does Ultimate Aloe Gel have a scent or is it sticky when applied?

Ultimate Aloe Gel has a soothing scent that goes on cool like a gel when applied. Ultimate Aloe Gel will help in soothing irritated areas caused by minor scrapes, bug bites, and sunburn, but is not formulated to heal skin.

Is this product tested on animals?

No, this product was not tested on animals.
