Why choose Isotonix Calcium Plus?

Calcium is essential for building and maintaining strong bones. Isotonix Calcium Plus provides the body with an optimal blend of calcium, vitamin D3, magnesium and vitamin C in an efficient isotonic solution that is readily absorbed by the body. Isotonix dietary supplements are a replica of the body's own fluids, such as tears, plasma and breast milk. All fluids in the human body have a certain concentration, which is called the osmotic pressure. The body's common osmotic pressure, which is isotonic, allows a consistent maintenance of all body tissues. In order for a substance to be used in the body's metabolism, it must be changed to the isotonic state.

Isotonix Calcium Plus paves the way for powerful results since it is in an isotonic form rather than a tablet. Calcium in tablet form is difficult for your body to absorb. People may fail to absorb tablet calcium supplements because the calcium supplement is not blended with vitamin D and magnesium; these are necessary to aid in the absorption and use of calcium.

Ordinary calcium tablets require stomach acid to dissolve their compounds, but Isotonix Calcium Plus has no need of stomach acids to be utilised. It delivers an efficient calcium solution that is more readily absorbed by the intestine. Its natural citrus flavour is preferable to the chalky taste of typical chewable calcium wafers or tablets.

The Isotonix Advantage!

Isotonix dietary supplements are delivered in an isotonic solution. This means that the body has less work to do in obtaining maximum absorption. Isotonic products allow nutrients to pass directly into the small intestine and be rapidly absorbed into the bloodstream. With Isotonix, little nutritive value is lost, making the absorption of nutrients highly efficient while delivering maximum results.

Isotonix products also offer the fastest and most efficient delivery system of all nutraceuticals supplements and are formulated using only the most advanced and scientifically proven ingredients. Isotonix products are completely free of binders and fillers common in traditional tablet and capsule products so you know that you are getting only the quality ingredients you expect.
