FAQ'S

What is the purpose of using a translucent powder?

Translucent powders are the perfect product for anyone who wants a sheer setting powder. Setting powders can be used to help neutralize oil, cover small imperfections and set liquid foundation for all day wear. You can use this product with or without other makeup to achieve a flawless finish.

How many shades does Motives Luminous Translucent Loose Powder come in?

Motives Luminous Translucent Loose Powder comes in two shades: Light and Medium.

What is the difference between pressed and loose translucent powders?

Motives Luminous Translucent Pressed Powder is formulated to support collagen and protect the skin, enhancing its smooth appearance. It can be worn atop foundation as a setting powder or alone, as it offers more coverage than a loose powder. Motives Luminous Translucent Loose Powder contains vitamin C to support collagen in the skin and mica to reflect light away from imperfections. It should be worn as a setting powder over foundation, as it offers little coverage.

Will Motives Luminous Translucent Loose Powder clog my pores?

No, it sets a flawless finish over any foundation without clogging the pores.
