- Promotes elasticity and suppleness
- Natural mineral ingredients include iron oxide, mica and titanium dioxide

FAQ'S

How do I apply Motives Collagen Core Lipstick?

Gather Motives Collagen Core Lipstick on a lip brush and begin by lining the lips. After lining is complete, fill in the rest with a lip brush or lipstick tube. Now your look is complete.

What benefits do I get from the Motives Collagen Core Lipstick?

From this product, you will maintain healthy-looking lips, and reduce the appearance of fine lines and wrinkles. You will maintain moisture, which nourishes, smoothes and softens the lips.

Can I use Motives Collagen Core Lipstick after plastic surgery?

Motives Collagen Core Lipstick is made with natural minerals and oils that condition lips, making it gentle to use. Make sure to check with your physician before you start to use makeup again, and always wait to apply makeup until your incisions have healed. It is recommended that you use new applicators for your makeup after any surgical procedure to reduce the risk of irritation.

What is collagen?

Collagen is the main protein found in hair, skin and throughout the body. Collagen works to give skin its texture, structure and appearance. It helps to provide the hair and skin with strength, flexibility, elasticity and resilience. It also helps to bind and retain water. As a person ages, the body's ability to produce and, therefore, sustain collagen decreases. As collagen decreases, the skin starts to show signs of aging, such as wrinkles. By supporting the body's collagen needs, we can slow some the effects of aging on how we look and, therefore, feel about ourselves.

Why do I need collagen?
