ISOTONIX OPC-3 (90 SERVINGS); OXYGEN  
EXTREME (30 SERVINGS); CURCUMIN EXTREME  
(30 SERVINGS)

## Why choose the Detox Kit?

Toxins build up in our bodies over time through the air we breathe, the foods we eat and the stress we put our bodies under on a daily basis. The master filter in our body – the liver – works to cleanse the body of these toxins to keep them from disrupting the normal functions and operations of the body; essentially, keeping you healthy.

Unfortunately, the overabundance of toxins our bodies build up, causing undue stress on our liver; and often the liver can't keep up with the demand. It needs help to remove these toxins and keep you healthy. Antioxidants produce a compound that triggers the expression of detoxifying and defensive genes that protect the body from harmful toxins known as xenobiotics, which are produced during detoxification. We need to ensure we boost our antioxidant levels to keep our bodies from being damaged by the toxic chemicals being produced.

To promote regular detoxification, Market America has created the Detox Kit, a combination of three products – Oxygen Extreme, Curcumin Extreme, and Isotonix OPC-3 – that work synergistically for overall antioxidant support. Supporting liver detoxification by adequate intake of antioxidants can help to achieve healthier ageing, a longer lifespan and optimal health.

With its strong antioxidant formula, Oxygen Extreme can help play a factor in the maintenance of good health. Its synergistic ingredients work to enhance and support multiple areas of health, including cognitive function, eyesight and immune function.

Curcumin Extreme helps relieve and promote your joints' comfort and relief from inflammation symptoms thanks to its unique formula that includes Meriva, a curcumin complex scientifically proven to have superior bioavailability and absorption rates compared to other curcumin products on the market. In conjunction with conventional treatments, Curcumin Extreme can play a key role in the maintenance of your overall health – especially the health of your joints.

This kit is also paired with our all-star antioxidant, Isotonix OPC-3, which also helps fight free radicals. Studies have shown OPCs to be more effective than vitamins C and E in
