FAQ'S

BENEFITS

- Helps control surface shine and absorb excess oil
- Fewer required "touch-ups" throughout the day
- Helps reduce appearance of makeup smudging or creasing
- Surface cooling technology holds temperature to avoid melting or sliding
- Works with all types of makeup
- Works great with 10 Years Younger Setting Spray

FAQ'S

How do I use Motives No More Shine Makeup Setting Spray?

Holding Motives No More Shine Makeup Setting Spray six to eight inches from the face, lightly spray all over. Be careful not to over spray the product, as too much can make skin feel damp.

Does Motives No More Shine Makeup Setting Spray work for all skin types?

Motives No More Shine can certainly be used on all skin types; however, it is primarily for oilier skin. It is most effective at helping control oil on the surface of the skin to reduce shine.

Will this help me conserve the amount of makeup I use?

Yes, Motives No More Shine Makeup Setting Spray is designed to cool the skin's surface to reduce melting and shine. This means you do not have to touchup throughout the day to maintain your perfect appearance, thus cutting down the amount you spend on makeup each day, month and year.

Can I use Motives 10 Years Younger Makeup Setting Spray with Motives No More Shine?

Absolutely! This product works great with Motives 10 Years Younger Makeup Setting Spray. Motives 10 Years Younger will keep you looking young by preventing makeup from settling into fine lines and wrinkles, while Motives No More Shine controls the oil and shine on your face.
