## Why Choose Autoworks Interior Cleaning Spray?

Some interior cleaners can strip the interior surfaces of their natural sheen and may not be safe for all surfaces. Similar products may only clean one surface of your car's interior like the dashboard or the seats. Why waste time and money on several different products to clean the interior of your car? Autoworks Interior Cleaning Spray is safe to use on most interior surfaces, including vinyl, most fabrics, plastic, carpet and wood trim. Autoworks Interior Cleaning Spray is a no-rinse formula designed to safely and effectively remove dust, grease and dirt. Autoworks Interior Cleaning Spray is an environmentally-friendly\* cleaning solution with non-toxic, biodegradable, plant-based ingredients that are free of paraben preservatives and phosphates.

How do I avoid getting Autoworks High Performance Auto Care Interior Cleaning Spray on my windows and windshield when I'm cleaning my car's interior?

To avoid spraying Autoworks High Performance Auto Care Interior Cleaning Spray onto your glass surfaces, spray directly onto a clean, dry cloth and wipe.
