Why Choose nutraMetrix Heart Health Omega III Fish Oil with Vitamin E?  
nutraMetrix Heart Health Essential Omega III with Vitamin E is a superior product due to a number of factors. The best fish are used to produce a clean and safe product that is rich in EPA and DHA. It also contains 3000mg of fish oil where most other commercial products contain a third of the total fish oil contained in nutraMetrix Heart Health Essential Omega III. nutraMetrix Heart Health Essential Omega III comes from small fish where other competitive products use large fish which are more likely to accumulate toxins.

Key Benefits of nutraMetrix Heart Health Omega III Fish Oil with Vitamin E:

- Helps maintain normal cholesterol levels
- Helps maintain healthy blood pressure levels
- Helps maintain normal blood flow
- Helps maintain normal triglyceride levels in the blood
- Promotes overall cardiovascular health
- Helps maintain healthy levels of C-reactive protein
- Promotes a healthy complexion
- Supports joint health
- Supports relief from temporary inflammation associated with the normal aging process

Is the fish oil tested to be free of heavy metals?

Yes. The fish oil used in Heart Health Essential Omega III Fish Oil with Vitamin E is laboratory tested for mercury, lead, PCB and other heavy metals. We only use fish oil that meets or exceeds standards set by Canada (CFIA), the European Union (EU) and the United States (CRN).

Directions for use:

Take two softgels once daily with 8 fl.oz. of water or as directed by your healthcare provider.

Warning:

If you are currently using warfarin(Coumadin), other anti-platelet/anticoagulant drugs or any other prescription drugs, have an ongoing medical condition, or if you are pregnant or breastfeeding, consult your healthcare provider before using this product.
