## FAQ'S

How should I apply Motives Pressed Blush?

Choose a powder brush or a kabuki brush and try to get an even amount of blush in the bristles. Then, smile and sweep the brush in a U shape along your cheek bone and out to your temple. Make sure you blend the blush with the rest of your makeup to ensure a natural look.

If I use concealer, foundation and blush, what order should I apply them in?

Start with the concealer, and then cover with your foundation. After that, apply the brush. Make sure to blend as you go to create a natural and even look. When you're satisfied with your coloring, dust Motives Translucent Loose Powder over your entire face to set your look and keep it looking fresh all day.

I have oily skin. Will I have to reapply this blush?

Motives Pressed Blush works with any skin type. However, on especially humid days you may need to reapply your blush once.

Does Motives Pressed Blush have a shimmery finish or a matte finish?

It depends on which shade you use! If you prefer a shimmery finish, try Flushed. If you prefer a matte finish, use Baby Doll or Pretty in Pink.
