The world's most advanced nutraceuticals

MAINTAINS CELL HEALTH

PROMOTES NORMAL CELL
CYCLE ACTIVITY

PROMOTES APOPTOSIS

PRODUCT SKU: 13061 | 30 SERVINGS

Why Choose Isotonix Resveratrol?

The health properties associated with red wine have intrigued doctors and scientists for centuries, but only in recent times has intensive study revealed the unique benefits of resveratrol for both cardiovascular health and antioxidant defense at the cellular level. Only Isotonix provides resveratrol in its most bioavailable form, and surpasses competing products by incorporating an exceptional combination of BioVin® full spectrum grape extract and Resveravine®. This patented concentrate delivers up to 300 times the amount of trans-resveratrol as other products, offering protection against cholesterol oxidation, promoting vascular health and providing optimum ORAC value.

Resveratrol contains wine extracts. Is it alcohol free?

Yes. Resveratrol is alcohol free; there is no alcohol in this product.

Who should take this product?

Clinical studies have shown that resveratrol extract may be helpful in promoting apoptosis (programmed cell death) in unhealthy cells, supporting normal cell cycle activity, promoting the normal activity of the SIRT-1 gene, thereby supporting overall cellular health. If you are interested in promoting cellular health and maintaining good cardiovascular health, then Isotonix Resveratrol is perfect for you.*

When should I start to see/feel the effects of this product? What should I expect?

The antioxidant benefits of Isotonix Resveratrol should be noticeable in about four to six weeks. Please remember that everyone's body is different, so for some it may take longer to notice the benefits of Resveratrol. You should expect to feel better and healthier overall.*

Do I need OPC-3 if I take this product?

Isotonix OPC-3 is a superior antioxidant with many health benefits. Isotonix Resveratrol can be taken with other antioxidants; in fact, antioxidants work in several mechanisms, and they build upon each other. For a complete comprehensive antioxidant defense, taking OPC-3 and Resveratrol is a smart choice protecting your body from the damaging effects of free radicals.*
