Custom Health Solutions

IMPROVE AND ENHANCE  
MEMORY

MINIMIZE EFFECTS OF  
AGING ON THE BRAIN

MAINTAIN NORMAL BRAIN  
PHYSIOLOGY

PRODUCT SKU: 13095NM | 30 SERVINGS

Why choose nutraMetrix Prime Cognitin Memory Support Formula? nutraMetrix Prime Cognitin has a select ingredient combination to enhance memory and inhibit oxidative stress to the brain. Alpha-lipoic acid has antioxidant activity that can scavenge free radicals in the brain to stop the undesirable chain reaction they cause. Alpha-lipoic acid is both water and fat soluble, and can regenerate endogenous antioxidants, such as vitamin E, vitamin C, and glutathione, and inhibit oxidative stress. Vinpocetine and acetyl L-carnitine help maintain healthy blood circulation in the brain. Cognitin is specially formulated to promote proper blood flow to the brain in order for the brain to maintain peak performance and to infuse the brain with antioxidants to inhibit free radicals activity in the brain

Key benefits of nutraMetrix Prime Cognitin Memory Support Formula:

- Aids in improving and enhancing memory
- Helps maintain healthy blood circulation within the brain (cerebral blood flow)
- Helps maintain normal brain physiology
- Helps minimize the effects of aging on the brain
- Inhibits oxidative stress on the brain
- Promotes healthy levels of acetylcholine (an important neurotransmitter in the brain)
- Supports normal mental activity
- Supports overall cognitive performance
- Promotes learning capacity

If I am already taking Vitamind, can I also take Cognitin?

The combination of Vitamind and Cognitin is not necessary or recommended. The vinpocetine in Cognitin may interact with the ginkgo biloba in Vitamind and may cause the blood to thin.

Directions for use: Take 1 capsule daily with food.

Warning: If you are currently using warfarin(Coumadin), other anti-platelet/anticoagulant, antidiabetic, chemotherapy or any other prescription drugs, have an ongoing medical condition, consult your healthcare provider before using this product. Women who are
