ESSENTIAL FOR GROWTH
AND DEVELOPMENT OF
BABY

MAINTAIN BLOOD PRESSURE
DURING PREGNANCY

PRODUCT SKU: 13073NM | 45 SERVINGS

Why Choose nutraMetrix Isotonix Prenatal Activated Multivitamin?

Unlike any other prenatal vitamin on the market today, nutraMetrix Isotonix Prenatal Activated Multivitamin gives expectant moms everything their bodies need, how they need it. Traditional prenatal vitamins take time and effort to transform nutrients into ways the body can utilize them. nutraMetrix Isotonix Prenatal Activated Multivitamin provides what mom and baby need for a healthy pregnancy, delivering vitamins and minerals crucial for a healthy pregnancy in their active forms and in an isotonic state. This allows the nutrients to be delivered faster, easier and more effectively than traditional prenatal vitamins.

Key Benefits of nutraMetrix Isotonix Prenatal Activated Multivitamin:

- Helps contribute to a healthy pregnancy
- Provides vitamins and minerals essential for normal growth and development of the baby
- Helps maintain normal blood pressure during pregnancy
- Contains activated forms of select B vitamins to ensure optimal utilization by the body
- Healthful diets containing adequate folate may reduce a woman's risk of having a child with a brain or spinal cord defect
- 0.8 mg folic acid in a dietary supplement is more effective in reducing the risk of neural tube defects than a lower amount in foods in common form. FDA does not endorse this claim. Public health authorities recommend that women consume 0.4 mg folic acid daily from fortified foods or dietary supplements or both to reduce the risk of neural tube defects.
- Helps promote a healthy birth weight of the baby
- Meets the increased requirement for certain vitamins and minerals during pregnancy
- Helps maintain healthy skin and hair

Directions for use:

Pour 2 level bottle capfuls of powder into a cup. Add 4 fl.oz of water and stir. As a dietary supplement, take once daily or as directed by your healthcare provider. Maximum absorption occurs when taken on an empty stomach.

Warning:

If you are currently using prescription drugs, have an ongoing medical condition, or if you are pregnant or breastfeeding, consult your healthcare provider before using this product.
