PRODUCT SKU: 6481 | INCLUDES MULTIVITAMIN WITHOUT IRON (30 SERVINGS), ACTIVATED B COMPLEX (30 SERVINGS) AND OMEGA III FISH OIL (30 SERVINGS)

Why Choose Optimal Wellness Kit?

Optimal health starts with a solid foundation. Start by ensuring your body gets the proper vitamins and nutrients it needs. The Optimal Wellness Kit contains three essential supplements – Isotonix® Multivitamin, Isotonix Activated B-Complex and Heart Health Essential Omega III with Vitamin E – that will help you promote long-term health and optimal nutrition.

Isotonix Multivitamin contains 100 percent or more of the daily value of most essential vitamins and minerals to complement your existing diet. Isotonix Multivitamin supplements dietary deficiencies and helps maintain normal metabolic functioning. The Optimal Wellness Kit also includes Isotonix Activated B Complex to keep your energy high and help promote your cardiovascular health. Isotonix Activated B Complex delivers metabolically active forms of several vitamins and minerals, which are important because traditional forms of vitamins B6, B12 and folic acid found in most other B complex products must undergo chemical changes in order to be utilized by the body. Finally, Heart Health Essential Omega III Fish Oil with Vitamin E is a superior product due to a number of factors. The best fish are used to produce a clean and safe product that is rich in eicosapentaenoic acid (EPA) and docosahexaenoic acid (DHA). It also contains 3,000 mg of fish oil where most other commercial products contain a third of the total fish oil contained in Heart Health Essential Omega III Fish Oil with Vitamin E.

Can the Optimal Wellness Kit products be taken at the same time?

Yes. The Optimal Wellness Kit products can safely be taken at the same time, provided that one follows the recommended serving size for each product.

Why are Isotonix® supplements better than standard supplements?

Isotonix formulas are more effective than standard formulas because they offer the best way to get the maximum delivery of actives into the bloodstream. Isotonix formulas are also the fastest and most effective way to receive vitamins and minerals. The stomach has very little work to do because the pH and tonicity are carefully designed to allow the stomach to quickly release all the nutrients into the small intestine. With the Isotonix formulas, this process takes about five minutes, whereas a standard vitamin tablet can take up to four hours.
