PRODUCT SKU: 6492 | INCLUDES PRIME JOINT SUPPORT FORMULA BY ISOTONIX (45 SERVINGS), CURCUMIN EXTREME (30 SERVINGS) AND HEART HEALTH ESSENTIAL OMEGA III FISH OIL WITH VITAMIN E (60 SERVINGS)

## Why Choose Joint Health and Flexibility Kit?

As we get older, the effect that aging has on our bodies becomes more obvious. One of the most noticeable signs of aging occurs in joint health. As we age, the wellbeing of our joints begins to deteriorate, causing joint discomfort, limited mobility and overall poor joint health. For this reason, it is important to combat the effects that aging places on our joints. To help with the fight for optimal joint health, we have combined three products (Prime™ Joint Support Formula by Isotonix, Curcumin Extreme™ and Heart Health™ Omega III Fish Oil with Vitamin E) to create the Joint Health and Flexibility Kit.

The Joint Health and Flexibility Kit is an ideal combination of products, designed to support healthy and flexible joints. This grouping of products supports joint health, offers temporary inflammation relief, and promotes tissue hydration and lubrication. In addition, the Joint Health and Flexibility Kit offers 20% in savings from the individual suggested retail prices of the products. The purpose of the Joint Health and Flexibility Kit is to help individuals maintain their joint health while contributing to overall mobility and flexibility.

## What makes these three products ideal for joint health and flexibility?

Prime Joint Support Formula by Isotonix® contains glucosamine, naturally produced by the body and a key component of cartilage. An aminomonosaccharide (a combination of the amino acid — glutamine and a sugar — glucose), glucosamine is concentrated in joint cartilage, and has been scientifically proven to support healthy joint function and promote the normal production of synovial fluid, which lubricates your joints and regenerates cartilage. Heart Health™ Essential Omega III pairs well with Prime Joint Support Formula, as omega III fatty acids have been shown to support healthy joint lubrication. Like Pycnogenol® in Prime Joint Support Formula, Curcumin Extreme can promote the reduction of inflammation associated with the normal aging process.

## How often should I take these three products?

Each product is most effective when taken daily.

Save \$37.95 compared to purchasing these products separately - a 20% savings!
