MORE FLAVOR, LESS SUGAR

PRODUCT SKU: 6941 | 30 - 90 SERVINGS

## Why Choose DNA Miracles™ Gummy Vitamins?

As a parent, you want to be sure about the health of your children. With DNA Miracles™ Gummy Vitamins, you can rest easy knowing that you're providing your children one of the most complete children's multivitamin formulas on the market today.

DNA Miracles Gummy Vitamins provides your child with 23 vitamins and minerals, including 100 percent or more of the daily recommended value of 12 nutrients for ages four and older. Compared to its competitors, DNA Miracles Gummy Vitamins is a more complete nutritional formula of the highest quality for less cost per serving, meaning kids are getting more while parents are saving more.

What are common vitamins and minerals that kids often don't get enough of through their diets?

Calcium, zinc and vitamins A, C and E are some common vitamins and minerals that children generally don't get enough of. Calcium is needed to form growing bones, and a proper calcium intake beginning at childhood can help maintain normal bone mass later in life. Zinc is a vital nutrient for proper growth and development. Vitamins A, C and E are also important vitamins during childhood and throughout life.

What other benefits can my child receive from taking this product?
