FAQ'S

BENEFITS

- Acts as a superior anti-ageing system with sunscreen protection against UVB rays
- Smoothes, softens and moisturises the skin
- Excellent pre-makeup base for all skin types
- Light texture enables moisture retention and comfortable wear
- Absorbs quickly and leaves no residue
- Paraben-free formula

FAQ'S

How do I use Cellular Laboratories De-Aging Moisturizing Day Crème SPF 20?

- Apply liberally to clean skin 15 minutes before sun exposure
- Allow to absorb
- Use a water-resistant sunscreen if swimming or sweating
- Ask a doctor before use on children under three years of age

What is the De-Aging Moisturizing Day Crème?

The De-Aging Moisturizing Day Crème is a multi-purpose hydrating cream with protection against UVB rays.

Is the De-Aging Moisturizing Day Crème acceptable for everyday use?

Yes, it is important to wear a sunscreen every day, and the De-Aging Moisturizing Day Crème is perfect for daily use. It absorbs quickly into the skin to provide protection against the sun and is perfect for use before the application of makeup.

What are the effects of the bio-engineered human growth hormone ingredient?

Human Oligopeptide-9 helps to reduce the appearance of fine lines and wrinkles, promotes cellular vitality and supports the normal production of new skin cells. Cellular renewal, along with the preventative SPF 20, makes the De-Aging Moisturizing Day Crème both a reactive and proactive solution.

Is this product tested on animals?

This finished product has not been tested on animals.
