- Translucent coverage for naturally-flushed cheeks
- Layer blush to create vivid cheeks
- Available in four shades to complement any skin tone
- Safe for use on cheeks, eyes or lips
- Paraben free
- Talc free

## FAQ'S

Why should I use Motives Mineral Pressed Blush?

Motives Mineral Pressed Blush contains natural minerals and oils that minimise the appearance of lines to give you radiant, younger-looking skin. The natural ingredients make mineral blush safe to use on cheeks, lips and eyes, leaving you with endless possibilities to coordinate your look and add drama for any occasion.

Can I use Motives Mineral Pressed Powder after a chemical peel?

Always consult your doctor to make sure it is safe for you to resume using makeup after a chemical peel. It is recommended that you use new applicators for your makeup after a chemical peel to reduce the risk of irritation. Motives Mineral Pressed Blush is paraben free and contains soothing ingredients like aloe and rosemary extract, making it a great option for women with sensitive or recovering skin. If a crust has formed from your peel, you will need to wait until it is completely gone.

Is Motives Mineral Pressed Blush safe to use on other areas of the face?

Absolutely! Applying Motives Mineral Pressed Blush to the lips is a great way to colour-coordinate your cheeks and lips, leaving you the ability to play up the eyes for contrast. Motives Lip Lock should be applied to the lips first for extra hold throughout the day. Moisten a lip brush and begin by lining the lips; then fill in the rest.
