

# MOTIVES® MINERAL DUAL FOUNDATION

**MOTIVES**  
LOREN RIDINGER

BENEFITS  
FAQ'S

## BENEFITS

- Mineral-based formula applies evenly for a flawless full-coverage look
- Provides gorgeous, silky, buildable coverage
- Oil-free, water-resistant powder provides a smooth, matte finish
- Can be applied dry for medium coverage or wet for a more intense pigment
- Suitable for women with normal and combination skin
- Gentle and safe for sensitive skin

## FAQ'S

Can I use Motives Mineral Dual Foundation with non-mineral products?  
Motives Mineral Dual Foundation can be used with your other non-mineral makeup. However, to really achieve the smooth and luminous look of mineral makeup, we recommend that you use other mineral products from both the Motives and Motives for La La product lines.

What is the texture of Motives Mineral Dual Foundation?

Motives Mineral Dual Foundation's texture depends on the way it is applied. Used dry, Motives Mineral Dual Foundation provides matte-textured, medium buildable coverage. Using Motives Mineral Dual Foundation wet provides dewy and luminous full coverage.

Tips on How to Use Motives Mineral Dual Foundation:

To use your Motives Mineral Dual Foundation dry:

- Apply using the included sponge (dry), buffing the foundation onto your skin in small circles, focusing on areas that need more coverage
- If you choose, you may use, for lighter coverage, a fluffier brush like Motives Powder Brush.

To use your Motives Mineral Dual Foundation wet:

- Apply using the included sponge (wet) and swirl around the compact.
- Smooth over your face, blending as you go.
- Utilising this wet technique, the colour in Motives Mineral Dual Foundation will create a darker shade.
