Why Choose Snap S.O.S.?

Snap S.O.S. (Smoke, Odor and Stain Eliminator) is a non-toxic, biodegradable, hypoallergenic spray that eliminates organically caused odors and smoke on contact. Snap S.O.S. (Smoke, Odor & Stain Eliminator) virtually eliminates odor and smoke from the air, draperies, sofas and beds and leaves a pleasant, light fragrance. Snap S.O.S. (Smoke, Odor & Stain Eliminator) is perfect for the home, the office and your car. Snap S.O.S. (Smoke, Odor & Stain Eliminator) also eliminates many organic stains from carpets, rugs, linens and clothing quickly and safely without the need for potentially harmful chemicals. Snap S.O.S. (Smoke, Odor & Stain Eliminator) is an environmentally-friendly cleaning solution with biodegradable, non-toxic and phosphate-free, naturally occurring enzymes and recyclable bottles. The naturally-occurring enzymes in Snap S.O.S. (Smoke, Odor & Stain Eliminator) break down organic odor-producing products in H₂O (water) and CO₂ (carbon dioxide). Use Snap S.O.S. (Smoke, Odor & Stain Eliminator) in the kitchen to eliminate odors from garbage pails and garbage disposals*, in bathrooms, or mildewed basements. Difficult organic stains, like coffee and blood, come out in seconds. Enzymes are catalysts that speed up the rate of chemical reactions, in some cases, as much as ten million times faster than normal. Enzymes are amino acid proteins secreted by every living plant and animal cell. They are very sensitive and are usually limited to only one reaction or purpose. Enzymes break down protein, starches and fats that maybe found in organically-caused stains like food stains, sweat or dirt.
