BENEFITS

- Blends well and layers exquisitely
- Creates a natural, healthy-looking glow so skin looks renewed and flawless
- Soft and luxurious texture in a satin-smooth, non-irritating formula
- Instantly minimizes the look of imperfections and visible pores
- Works well for women of all skin types and colors
- Conditions the skin without clogging pores

FAQ'S

How should I apply Motives Pressed Blush?

Start with a powder brush available in the Motives 8-Piece Deluxe Brush Set and try to get an even amount of blush in the bristles. Then, smile and sweep the brush in a U shape along your cheek bone and out to your temple. Make sure you blend the blush with the rest of your makeup to ensure a natural look.

What color blush should I select if I have very fair skin?

Motives Pressed Blush comes in a wide variety of shades, so every skin color can find a shade that works for them. For fair skin, consider using Pretty in Pink for a pink look or Dreamsicle for a more natural look.

If I use concealer, foundation and blush, what order should I apply them in?

Start with the concealer, and then cover with your foundation. After that, apply the blush. Make sure to blend as you go to create a natural and even look. When you're satisfied with your coloring, dust Motives Luminous Translucent Loose Powder over your entire face to set your look and keep it looking fresh all day.

I have oily skin. Will I have to reapply this blush?

Motives Pressed Blush works with any skin type. However, on especially humid days you may need to reapply your blush once.
