FAQ'S

BENEFIT

- Conditions, nourishes and moisturizes the skin
- Delicious, light scent of vanilla
- Softens and promotes skin elasticity by increasing its ability to hold moisture

FAQ'S

How do I use Royal Spa Smooth as Silk Hydrating Lotion?

Squeeze desired amount onto your hands, apply and massage over your legs, arms, and torso for smooth and hydrated skin.

Is this product safe to use on my face?

While you can, it's not recommended. Because Royal Spa Smooth as Silk Hydrating Lotion is formulated for the body, it is made to seep into thicker skin. The skin on your face is much more delicate than the skin on your body. For this reason, we recommend using a face moisturizer for your face instead.

Will using this product make my skin feel slippery?

This product is formulated to seep into your skin and hydrate from within, not stay on the surface. While there may be a thin layer on top of your skin to lock in moisture, it will not feel slippery. However, please note that every person's skin type and reaction to different products is different.

Will Smooth as Silk Hydrating Lotion alter the appearance of my skin?

To some extent, yes. While it will not color your skin in any way, it may make your skin look smoother and firmer. Because this product supplies the skin with moisture and locks it in, elasticity of the skin is improved making your skin look tighter.
