- Easily and effectively removes makeup, dirt and oil
- Refines pores for smoother-looking skin
- Prepares skin for optimal absorption of skincare treatments
- Use alone to gently exfoliate or with a facial cleanser
- Ideal for all skin types

FAQ'S

What is a konjac sponge?

The konjac sponge is derived from the mountainous regions of Asia, where it is created from the fibrous root of the konjac plant. Originally used as a dietary and medicinal food, its beauty origins extend 1,500 years into the past when locals began using the fiber to gently cleanse sensitive skin. Its natural texture allows for effective exfoliation of dry, rough skin without irritation, making it an ideal beauty tool.

Why choose Motives Konjac Facial Sponge Set?

This beauty tool is gentle enough to use on all skin types, even the most sensitive. Unlike skincare products developed with chemical exfoliators or beads, the konjac sponge is made from the fibrous root of the plant, giving it a unique texture that provides exfoliation without irritating the skin.

*For deep exfoliation, it is recommended to use a traditional mask or microdermabrasion.

How do I use Motives Konjac Facial Sponge Set?

Daily use

Submerge the sponge in warm water until it fully expands (10-15 minutes with the first use)
 Massage skin using gentle circular motions (use with or without a cleanser) Using the cotton string, hang in a well-ventilated area to dry

Weekly Cleanse

Submerge the sponge in hot water for 5 minutes once a week to cleanse Using the cotton string, hang in a well-ventilated area to dry Do not use until the sponge has fully dried and returned to its natural state
