PRODUCT SKU: SG6229,SG6229IBV | 1.183L

Why choose Snap Free & Clear Fabric Softener?

Snap Free & Clear Fabric Softener is a phosphate-free, highly concentrated fabric softener, perfect for all your laundry needs. Snap Free & Clear Fabric Softener leaves clothes fresh and soft and eliminates static cling. Snap Free & Clear Fabric Softener is highly concentrated; one bottle does up to 80 loads of laundry in high efficiency (HE) washers and up to 40 loads of laundry in standard washers. Snap Free & Clear Fabric Softener is environmentally-friendly* and perfect for High Efficiency (HE) washers; just use half the recommended amount. Snap Free & Clear Fabric Softener is free of dyes and fragrances so it is hypoallergenic and safe for use on baby clothes or for anyone with sensitivity to dyes or perfumes.

How is Snap Free & Clear Fabric Softener environmentally-friendly?

Snap Free & Clear Fabric Softener is environmentally-friendly because it is made with biodegradable, non-toxic, phosphate free, plant-based softening agents and is bottled in recyclable plastic. Snap Free & Clear Fabric Softener is free of fragrances and dyes and does not contain any animal by-products.

Is Snap Free & Clear Fabric Softener safe?

Yes. Snap Free & Clear Fabric Softener is simply a combination of plant-based surfactants, water quality control agents and sudsing stabilizing agents. In case of eye contact, rinse thoroughly with water. If swallowed, give milk or fluids and contact a physician.

How do I use Snap Free & Clear Fabric Softener?

Directions for use: Snap Free & Clear Fabric Softener is highly concentrated; always use the cap for accurate measuring amounts. For regular or medium sized loads, fill cap to second line (approximately 1 fl. oz./30 ml). For extra large loads, fill cap to top line (approximately 1.5 fl. oz. /45 ml). For front-loading or high-efficiency washers, fill cap to first line (approximately ½ fl. oz. /15 ml). Can be added with detergent. For best results, add during the rinse cycle. Never apply directly to fabric, always add to water. Safe for all washable fabrics when used as directed. If spotting occurs, wet fabric and rub with mild soap, then rinse or rewash.
