- Ideal for normal, dry, mature and uneven complexions
- Perfect for travel
- Paraben-free formula

FAQ

How do I use the Masque? Cleanse and tone your face prior to treatment. Place a sheet of De-Aging Masque over the face and leave on for 10 minutes. Dispose of the sheet after use. Recommended treatment two to three nights a week to help brighten and hydrate the skin, or any time when it is important to give your skin a youthful, radiant glow.

How often and when should I use the Masque? Use the masque two or three times per week or how ever often you want extra moisture and support. Use to pull out impurities and improve moisture levels. Clean, toned and moisturised skin looks brighter, smoother and healthier. Use the masque at night.

Why is it called a Lifting Masque? As the formula seeps into the skin, it helps tightens and gives the appearance of a "lift." By supporting skin's moisture retention, the masque helps to support the integrity of skin.

Why is using a masque important to my skin care regimen? A masque is a great addition to your skin care regime. It allows you to optimise results of your daily skin care products. A masque seeps deep within your pores, pulling out anything left over from your week of repeated makeup application and speedy cleaning. Your skin will breathe easier, giving skin a radiant, healthier, younger-looking glow.

Is this product tested on animals? Cellular Laboratories does not conduct or commission animal testing of any finished product.
