Why choose Snap Triple Enzyme 3X Laundry Detergent?

Stains and odors don't stand a chance with Snap Triple Enzyme 3X Laundry Detergent. Three times more powerful than standard detergents, Snap Triple Enzyme 3X Laundry Detergent provides maximum cleaning power to fight the toughest stains and odors with a light, fresh scent. Snap deep cleans your clothes for the whitest whites and brighter colours load after load. Wash away layers of grime thanks to innovative enzyme cleansing technology that power lifts stains, but remains gentle on your clothes. Snap Triple Enzyme 3X Laundry Detergent is an eco-friendly laundry solution with biodegradable, non-toxic, phosphate-free and plant-based surfactants and essential oils. Snap Triple Enzyme 3X Laundry Detergent is perfect for High Efficiency (HE) washers; just use half the recommended amount to do up to twice as many loads as the leading 100 oz bottle! Make washing clothes a snap with Snap Triple Enzyme 3X Laundry Detergent!

What are enzymes?

Enzymes are proteins that are synthesized by every living plant & animal cell. They act as catalysts, or biological accelerators, to speed up bio-chemical reactions. Enzymes can complete chemical reactions without being used up which means the enzymes can act on another molecule and create another reaction. Eventually, the enzyme substrate is gone and the enzyme stops working.

Are enzymes safe?

Enzymes are proteins and are all-natural, environmentally friendly, biodegradable and non-toxic. They do not pose a safety issue when used in laundry detergents or cleaning solutions.
