FAQ'S

How do I use De-Aging Facial Cleanser? Use daily to clean off dirt and makeup. Pump a generous amount into palm. Massage onto face in a circular motion to cleanse and remove makeup. Rinse off with water. Can be used anytime day or night. For maximum anti-aging effects, follow with Cellular Laboratories Serums and Creams.

What is Cellular Laboratories De-Aging Facial Cleanser and what does it do? The Cellular Laboratories De-Aging Facial Cleanser is a botanical-rich, foaming cleanser for your face that gently dissolves the dead skin cells and exfoliates without stripping the skin. Is the De-Aging Facial Cleanser acceptable for all skin types? Yes. The De-Aging Facial Cleanser contains excellent moisturizing capabilities without stripping the skin or clogging pores.

How often should I use the Cellular Laboratories De-Aging Facial Cleanser? The Cellular Laboratories De-Aging Facial Cleanser is perfect for use in the morning to start your day off refreshed. Follow with the toner and Day Crème or SPF 55 for sun protection. It is also the perfect option at night to wash away impurities accumulated throughout the day.

What type of package does the Cellular Laboratories De-Aging Facial Cleanser come in? It comes in a 200ml bottle with a pump for dispensing.

Why is using a cleanser important? Cleansing is one of the most important things you can do for your skin every day. This helps to remove impurities, and unclogs pores to prevent breakouts and buildup. After cleansing, it is important to follow with a toner, treatment and moisturizer.
