- Paraben and Talc free

FAQ'S

Can I use Motives Mineral Pressed Powder with non-mineral products?

Motives Mineral Pressed Powder can be used with your other non-mineral makeup, but to really achieve the smooth and luminous look of mineral makeup, we recommend that you use other mineral products like Motives Mineral Blush and Motives Mineral Baked Eye Shadow Trios to complete your look.

What is the texture of Motives Mineral Pressed Powder?

Motives Mineral Pressed Powder's texture depends on the way it is applied. Used dry, Motives Mineral Pressed Powder provides matte-textured, medium buildable coverage. Using Motives Mineral Pressed Powder wet provides dewy and luminous full coverage.

Why should I use mineral foundation?

Motives Mineral Pressed Powder is paraben and fragrance free and contains soothing natural extracts, making it a great foundation for women with sensitive or acne-prone skin. The minerals in Motives Mineral Pressed Powder don't contain pore-clogging additives.

Do I have to wash my makeup off at night?

Mineral makeup is all-natural and gentle on skin, eliminating the necessity to wash your makeup off each night. Minerals are lightweight so they do not settle into lines or wrinkles, and do not clog pores. It is still recommended that you wash your face frequently to maintain optimal skin health.
