What is the purpose of Prime Feminene® Female Support Formula?

Prime Feminene® Female Support Formula is a dietary supplement created to help reduce hot flashes and night sweats, as well as other mild symptoms commonly associated with menopause or perimenopause as well as PMS. It may help stabilize moods and keep hormones in balance during these challenging, yet natural, biological processes women go through.

Why Choose Prime Feminene® Female Support Formula?

Specially formulated with select nutrients, Prime Feminene includes herbs like black cohosh, dong quai, soy extract, wild yam and chasteberry. It also provides select vitamins to help with mood and stress.
