Isotonix Essentials™ Anti-Aging can help you maintain the vitality of your body as you gracefully move up in years. It features a dynamic, custom blend of antioxidants, botanicals and minerals designed to provide the vitamins and minerals you need as your body ages.

Who should use Isotonix Essentials™ Anti-Aging?

Anyone who is maturing and looking for ways to support their health through anti-aging supplementation could be recommended to take this product.*

Why take Isotonix Essentials™ Anti-Aging?

This product was specifically formulated to serve aging adults. As we age our bodies tend to become less efficient at absorbing crucial nutrients, so it's important to be sure we're getting the right vitamins and minerals.*

How often should I use Isotonix Essentials™ Anti-Aging?

As a dietary supplement, take once daily or as directed by your healthcare provider.

How is Isotonix Essentials™ Anti-Aging different from similar products on the market?

Unlike many other age-management supplements, Anti-Aging offers activated B vitamins, specialized SunActive Fe™ iron that is easy on the stomach and a sufficient amount of vitamin D to support bone, heart and endocrine function.*Also, Isotonix Essentials™ Anti-Aging complements other products you may be taking (e.g. protein, amino acids, botanicals). Additionally, other age management products tend to focus on one specific ingredient to carry out their anti-aging claim. With Isotonix Essentials™ Anti-Aging, multiple ingredients used add to the anti-aging benefits of the customer.*
