

PRIME™

ANTI-AGING NUTRACEUTICALS

AstaReal® Astaxanthin

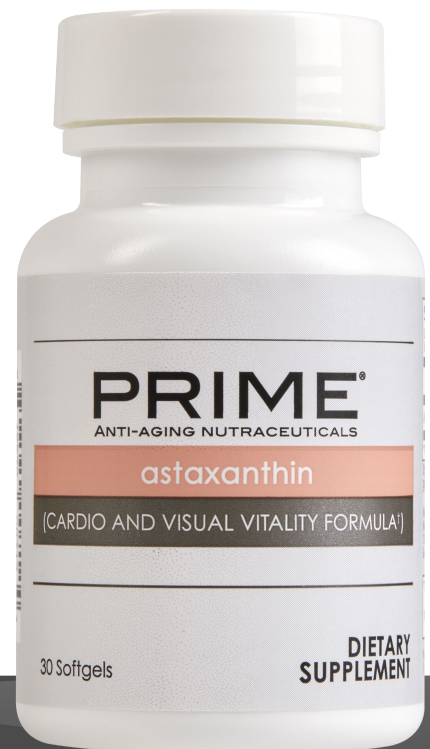

Ranking Among the Purest, Most Powerful Antioxidants Available!

Exposure to free radicals, contained within the air we breathe and the food we eat, can result in physical stress. Widespread oxidative stress throughout the systems of the body is believed to be a prime contributor to the aging process.

Prime™ Astaxanthin Cardio Visual Vitality Formula works against free radicals by providing powerful antioxidant defense to help protect the entire body on a cellular level.

- Typical astaxanthin formulas contain 2-4 mg per serving, falling short in delivering all possible benefits for the heart, eyes, skin and muscles.
- Our formula delivers a 6 mg serving of high-grade AstaReal[†] astaxanthin, making it superior to competitors for supporting healthy vision, skin, blood flow and muscular endurance and promoting optimal cardiovascular function.

Why Astaxanthin (AstaReal)?

Uses precision cultivation techniques in state-of-the-art facilities, producing 100% natural astaxanthin in a purified, sterile environment.

Shown to be a superior free-radical quencher when compared to other antioxidants like vitamin C, coenzyme Q10 and green tea.

Has a unique structure allowing it to cover the cell membrane and provide antioxidant protection in all layers; other antioxidants are more limited.

Heavily Substantiated Ingredient

- There are 30 cardiovascular-specific research publications on the benefits of astaxanthin.
- Over 10 clinical studies on the benefits of oral consumption of astaxanthin on both blood lipid levels and blood vessels have shown that astaxanthin helps maintain normal levels of HDL and triglycerides.
- Human studies suggest astaxanthin helps maintain healthy blood pressure by promoting healthy blood flow and vascular tone and supports cardiovascular health.
