

Helping Protect the Body From Negative Effects of **FREE RADICALS**

The challenge

Finding the right antioxidants, in the right amounts, to effectively target the different types of free radicals in the body.

How you can help

The best way to fight free radicals is to supplement with a variety of antioxidants. You will find that the whole is greater than the sum of its parts.

Timeless Prescription® Oxygen Extreme™ counteracts seven known species of free radicals.*

Antioxidant supporting ingredients*

Vitamin E: Supports the respiratory system and promotes a healthy immune system and the health of tissues.

Vitamin C: Helps to maintain healthy collagen in the skin, promotes normal healing, promotes healthy teeth and bones, and supports immune health.

Ginkgo Biloba: Helps support memory, brain function, mood, cerebral and peripheral circulation, and oxygenation and blood flow in the body.

Bilberry: Acts synergistically with vitamin E and supports normal resistance of blood capillaries, promoting their impermeable nature. Supports crucial enzymes in the retinal cellular metabolism and function. Supports a healthy heart and promotes normal platelet activity.

Milk Thistle: Protects against free radicals by acting as an antioxidant, protecting the liver. Supports the normal production of new liver cells.

Selenium: Acts synergistically with vitamin E, improving the efficiency of each other. Promotes the body's production of glutathione peroxidase, the body's master antioxidant.

Vitamin A (Beta-Carotene): Foods or supplements containing beta-carotene are converted to vitamin A for the maintenance of healthy skin, good vision and a healthy immune system.

Green Tea Extract: This is a health-promoting antioxidant and is rich in polyphenols.
